## Personal Experience

- **Extracting Information from Receipts**  
07 Aug, 2022 – 24 Nov, 2022  
We created an app for extracting useful information from receipts like extra tax added, bill no, invoice no, etc. This data can be further stored for future use if required
- **AI Based movie prediction Platform**  
20 Apr, 2022 – 08 Jun, 2022  
Build a fully functioning online platform to recommend movies based on the previously watched, most liked, genre and location of the user. Components used were vue.js, flask and python
- **Twitter sentiment analysis**  
21 Nov, 2021 – 10 Feb, 2022  
We used lexicon based approach to analyse the Tweets during the period of March 2019 to May 2019 and predict the results of the Loksabha election of 2019. We used various components like data cleaning, Natural language processing to make tweets more understandable and easy to analyse
- **Library management system**  
15 Dec, 2021 – 06 Feb, 2022  
Library management system keeps track of all the books present in the library and all the books which are rented to the members of the Library. This records are maintained by the admin and can also updates the record

## Certificates
